Please notice that we pronounce all plant names. We have given this matter much time and thought. The pronunciation has been taken from the best Garden Encyclopaedias and Pronouncing Dictionaries obtainable. We have chosen the form in most common use where there is any controversy and feel that you will not go far wrong in using our list as a guide for pronunciation.

We will furnish twelve plants of the same kind for the price of ten and three of the same kind at the dozen rate. We prepay all orders of \$1.00 or more unless otherwise noted. On orders for less than \$1.00 please add 10c to cover postage. You may select one extra 25c plant for each \$2.00 sent in or three for each \$5.00. We will allow a 5% discount for all cash orders received before March 1st. We believe that you will agree that this gives you unusual value.

For years we have been collectors of new and rare plants and have a few plants each of many hundreds of things not listed here. If you are interested in something you do not see listed, write us. We may have it. Plants suitable for the rockery are marked with an (R).

Achillea (A-kil-lee'-a) Millefolium Roseum (R)—Rosy pink flowers in dense heads 15". Beautiful fern-like foliage. Blooms all summer..... .20

—Parker's variety. 3' June to September. Clear yellow flower heads..... .20

—Ptarmica, Boule de Neige. Pure white double flowers in great profusion 15"..... .20

—Tomentosa (R). Bright yellow flowers. Fine grey fern-like foliage July-Sept. 6". True type..... .25

One each of the 4 Achilleas—.75

Aconitum (Ak-oh-ny'-tum)—Stately perennials having many spikes of hood shaped flowers in large racemes.

—Fischeri. A dwarf variety with very dark blue flowers. One of the best. 2'..... .35

—Napellus. Fine dark blue flowers which will bloom several times if kept cut back. 4'..... .25

—Napellus Bicolor. Like above with blue and white flowers..... .30

—Spark's Variety. Deep purple flowers in branched spikes. 3'..... .35

—Wilsoni. The true variety which is very rare. Beautiful lilac mauve flowers on 6' spikes in late autumn40

One Each of the 5 Aconitums \$1.50.

Aethionema (E-thi-on'-ema) Pulchellum (R)—A compact little evergreen shrub with blue-green, needle-like leaves and large deep rose flowers. This variety is the most showy and also the most hardy with us.50

Agrostemma (Ag-ro-stem'-ma) Coronaria (R)—Bright rosy pink. Silvery foliage. Very showy. July. 12"..... .20

Ajuga (A-jeu'-ga) Reptans rubra (R)—Fine creeper with heavy evergreen foliage and blue flowers in May and June..... .20

—Multicoloris (R). Excellent variety with deep red foliage and fine blue flowers25

One each of the 2 Ajugas .40

Allium (Al'-li-um) Pulchellum (R)—Brilliant loose clusters of lilac-pink flowers in August. Beautiful lacy effect. 15" .20

—Flavescens. A fine pale yellow variety.25

FREE: Your choice any 25c plant with each \$2.00 sent in.

Alyssum (Al-is'-um) (R)—Absolutely indispensable for the rockery and alpine garden. The evergreen foliage is good the year around and its silvery color furnishes fine contrast. When in bloom they form bold masses of color. Plant in full sun.

- Atsonilla**. Similar to **Saxatile**, but a lovely, citron-yellow, distinctly different.35
- Rostratum**. A shrubby, little plant covered with tiny, rough, silvery leaves and large heads of yellow flowers all summer.20
- Saxatile Compactum (R)**. Broad masses of bright yellow flowers in early spring. One of the very most showy of all rockery or front row border plants20
- Saxatile fl. Pl.** Double, giving an even richer display of golden flowers. Blooms from May to November but does not form seed.50
- Serpyllifolium (R)**. Fine mat of light greyish green foliage with clustered heads of yellow flowers 4"20

One each of the 5 **Alyssum**— \$1.15

Anchusa (An-keu'-za) Italica Lissadel—An improved form of the **Dropmore** variety. More compact growth and extra large sprays of clear gentian-blue flowers several shades darker than the type 4'25

Androsace (An-dros'-a-see) (R)— One of the most choice groups of alpiners. All are hardy and the ones listed here are of easiest culture.

- Brigantiaca**. Dense rosettes of grass-like foliage and tiny white flowers.35
- Lanuginosa**. Silvery leaves on trailing stems and lovely pink flowers. Beautiful trailing over a rocky ledge.... .35
- Lanuginosa Leichtlini**. Similar in type to above with white flowers having a crimson eye blooming all season .35
- Sarmentosa**. Forming many silvery rosettes of silky foliage which throw up dainty heads of verbena-like bright pink flowers. Indescribably lovely both as to flowers and year-around foliage. Should be in every collection.25

Anemone (An-em'-on-nee) Japonica (Japanese Windflower)

One of the most important of all hardy plants. Begins blooming in August and continues until cut down by frost. True aristocrats of the garden. Easiest culture. Perfectly hardy if given 3" of straw or leaves for winter protection

- Alba**. Large snowy-white like a glorified narcissus.... .25
- Alice**. Pink form of above. 3'35
- Prince Henry**. Double red flowers. An early dwarf sort 35
- Queen Charlotte**. Very large semi-double LaFrance pink. 3'35
- Richard Ahrends**. Large, single shell-pink flowers with lilac hue.35
- Rubra**. Beautiful rosy red with bright yellow stamens. 2'35
- Rubra Flore Pleno**. Double flowered form of above. 2' .35
- September Charm**. A beautiful new early blooming sort. Flowers a lovely silvery pink shaded with rose and mauve. Very fine. 2½'40
- Whirlwind**. Large semi-double white. 3'25

One each of the 9 Japanese Anemones \$2.65

Anthericum (An-ther'-i-kum) Ramosum (R)— A graceful plant with fine grass-like foliage and many strong, thin stems covered with lily-like, waxy, white flowers50

Aquilegia (ak-wi-leej'-i-a)—**Dobbie Imperial Hybrids**. Fine Hybrid columbines in shades of rose, red, blue, purple. Mixed.20

Dodecatheon Cusickii is a charming native.

- Anemone Canadensis**—A white flowering native blooming all summer. 15"..... .20
- Anemone Hepatica Acutiloba (R)**—Dainty little lavender blue flowers on 4" stems appearing in very early spring. Ornamental downy leaves coming after the flowers and persisting all season..... .20
- Anemone Hupehensis (R)**—An early Chinese sort blooming from early August until frost. Deep rose flowers 1½" in diameter. Profuse bloomer 10". Protect as for Japanese Anemones..... .35
- Anemone Pulsatilla (R)**—Large Crocus-like purple flowers in April. 8"..... .25
- Anemone Sylvestris (R)**—Large fragrant white flowers on 12" stems, blooming in early spring and again in the fall.25
- Arenaria (Air-ee-nair'-i-a) (R)**—Dainty, little creepers for the rockery or between stepping stones.
- Capillaris. A gem from the high slopes of Mount Spokane. Forms a moss-like mat from which spring dainty, white flowers. 3"35
 - Grandiflora. Mats of emerald sending up 4" branching stems with large white flowers all summer long.25
 - Montana. Mossy tufts covered with small silvery white flowers in early summer,.... .20
 - Purpurescens. A unique form having rosy-lilac flowers which fairly hide the glossy foliage.35
 - Verna Aurea. Mats of bright yellow foliage resembling true moss. Wonderful carpet for stones in partial shade.35
- One each of the 5 Arenaria— \$1.35
- Arabis (Ara'-bis) (R)**—Very useful plants for carpeting dry walls or banks forming broad mats of evergreen foliage fairly smothered under a profusion of bloom in early spring.
- Alpina. Earliest of all. Pure white, 4"..... .20
 - Alpina Flore Plena. Coming a little later. A double sort with long blooming season. Excellent cut flower, 8".....35
 - Alpina Rosea. A fine early single pink..... 35
 - Alpina Variegata. Very distinct, having a broad margin of creamy white around each finely notched leaf. Compact grower. White flowers..... .25
 - Aubrietoides. A new purple sort..... .35
 - Procurens. Glossy evergreen leaves on prostrate creeping stems forming a dense carpet smothered by a mass of white flowers in May.35
 - Sturys. A very dwarf compact white flowering sort..... .25
- Armeria (Ar-meer'-ia) Alpina (R)**—Diminutive tufts of grass-like leaves from which rise 3" stems with heads of bright rose flowers all season. A gem25
- Caespitosa. A rare gem forming diminutive, spiny tufts of deep green studded with almost stemless bright pink flowers.50
 - Formosa (R). A larger type 10" tall..... .20
- One each of the 3 Armeria— .85

FREE: Your choice any 25c plant with each \$2.00 sent in.

Artemisia (Ar-te-mis'-i-a)— A group of shrubby perennials having finely cut aromatic foliage unsurpassed for use with cut flowers.

- Abrotanum (Old Man). Dark green soft feathery foliage with a very pleasing odor25
 - Lactiflora. A most attractive plant with astilbe like fragrant creamy white flowers, scenting the whole garden in August and September. 4'..... .25
 - Frigida. A tiny silvery gem having silky, frosted foliage. .25
 - Stelleriana (Dusty Miller). Large deeply cut, silvery white leaves. 18"..... .20
 - Silver King (Ghost Plant). Striking variety with leaves like frosted silver, forming perfect mounds of white. Should be in every garden, 4'..... .25
- One each of the 5 Artemisias 1.05

Aster, Hardy, (Michaelmas-Daisy)—Make wonderful showing in late fall. Fine cut flowers.

- Blue Gem. An exceptionally bright electric blue, large double flowers. The best blue aster yet introduced50
- Empress of Colwall. Excellent double flowers of rosy lilac. New.35
- Feltham Blue. Pretty aniline blue, very profuse..... .20
- General Pershing. The largest pink. Profuse bloomer.... .35
- King George. The very finest blue violet.35
- Mrs. Raynor. The nearest red of all asters; Good form and fine bloomer..... .20
- Novae Angliae. Bright violet purple. Most showy.... .20
- Perry's White. Star-like blooms with white petals and yellow center20
- Queen of Colwall. Lovely delicate mauve semi-double flowers. Very tall growing branches beautifully curved giving the plant a charming effect. New.25
- St. Egwin. Pleasing, rosy-pink; very free blooming.... .20
- Weinholtzi. Very fine deep blue.35
- White Fleece. A native sort that literally covers itself with small, feathery white flowers midsummer to fall. 2'.... .25

One each of the 12 Asters— \$3.00

Aster, Hardy Dwarf Sorts. (R)

- Alpinus. Indispensable for the rockery or edging. Large deep blue flowers in May and June.25
- Mauve Cushion. Distinct Japanese species forming a circular cushion of green from which rise 9" stems bearing in lavish profusion very large soft mauve flowers with a silvery reflex.25
- Subcaeruleus. Forming dense tufts of leaves throwing up leafless 8" stems with massive bluish violet flowers 3" in diameter.25

One each of the three dwarf asters .70

New Dwarf Hybrid Asters. (R)

These new dwarf asters are invaluable for the rock garden as they come in the late summer and fall when color in the rockery is the hardest to maintain. They are perfectly hardy and grow with very little water, making perfect little mounds of color 8" to 10" in height. One of the most valuable additions to rock plants in recent years.

- Marjorie. Very large bright rose pink.35
- Nancy. Great masses of lavender pink blooms.35
- Ronald. Growing an inch or so taller with bright ruby buds opening to soft lilac pink.35
- Victor. Very dwarf, blooming clear pale blue.35

One each of the above dwarf asters for \$1.25

Androsace Sarmentosa is absolutely indispensable.

- Asperula (As-per-eu'-la) Odorata (R)**— Fine for carpeting shady places. Creeping stems and whorled leaves surmounted by heads of filmy white flowers all season. A fine scented herb, 8"..... .20
- Aubrietia (Oh-bre'-she-a) (R)**— One of the very best rock plants. Fine evergreen foliage and veritable sheets of color in the spring.
 —Lissadel Pink. A very superior pink sort..... .25
 —Mrs. Lloyd Edwards. Choice new crimson purple..... .25
 —Variegata. Small compact foliage edged with yellow. Purple flowers.50
- Asarum (As-ar'-um) Caudatum. Wild Ginger (R)**— Large dark, heart-shaped evergreen leaves on branches that root as they creep. Curious deep-red flowers. Beautiful in moist shade.25
- Bellis (Bel'-lis) Perennis Monstrosa (R)**—Improved double English daisy of monstrous size20
- Bellium (Bel'-i-um) Bellidioeides (R)**—A very dainty little daisy forming a broad mat covered with white flowers all season. 2"..... .20
- Boltonia (Bol-toh'-ni-a) Asteroides**— Thousands of pink aster-like flowers in late summer. 4'20
- Bocconia (Bok-koh'-ni-a) Cordata**—Beautiful glaucous foliage of classic design surmounted by filmy white plumes, followed by attractive seed clusters. 8'..... .25
- Bupthalmum (Buf-thal'-mum) Cordifolium**—A large plant with bold leaves and big yellow daisy-like flowers. 5'.... .20
- Bupthalmum Salicifolium**—Rich golden yellow flowers all summer. 2'..... .20
 One Each of the 2 Bupthalmum .35
- Calamintha (Cal-a-min'-tha) Alpina (R)**—Graceful little rock plant 6" high with rich purple snapdragon-like flowers .20
- Calypso (Kal-ip'-so) Borealis. (R)**—An exquisite little, hardy Orchid for a shady spot. Very particular as to soil. We ship in its own soil which must be left about the bulb for successful flowering.35
- Caryopteris (Ka-ri-op'-ter-is) Mastacanthus (B'ue Spiraea)**
 Shrubby perennial producing rich blue flowers in great profusion the whole length of the branches in late summer. Aromatic foliage. Very choice..... .25
 —Tangutica—A Chinese variety of very neat habit. Slender arching branches lined with delicate blue flowers from July to September..... .25
 One Each of the above 2 varieties—.45
- Cassia (Cas'-i-a) Marylandica**—Handsome pinnate foliage and many racemes of showy flowers with black anthers. Forms a compact, neat, bushy plant. 4'25
- Catananche (Ka-ta-nan'-ke) Caerulea (R)**—Forms low mat from which rise 12" slender stems having pretty deep blue flowers with darker eye resembling straw flowers. Fine for cutting..... .20

FREE: Your choice any 25c plant with each \$2.00 sent in.

Campanula (Kam-pan'-eu-la)—An indispensable family ranging from tiny fairy-like bells on 2" stems to noble specimens 8' and more in height.

- Alpestris (R).** Lovely creeper with large blue flowers, 3" stems.50
- Carpatica. (R)** Pretty nodding blue bells on 8" wiry stems all summer.20
- Carpatica Alba. (R)** White form of the above.20
- Garganica (R).** Compact rosettes of shiny foliage. Star-like blue flowers with a white eye. Very choice.25
- Glomerata.** Should be in every garden. Close heads of deep gentian blue flowers 15"20
- Isophylla Alba. (R).** A beautiful trailing plant with large white saucer-shaped flowers.35
- Isophylla mayi. (R).** Foliage covered with heavy reddish grey down and flowers of blue. Very choice.50
- Muralis (Syn. Portenschlagiana) (R).** Dense tufts of dark green foliage covered with blue bell-shaped flowers continuously from June till frost. One of the very best .25
- Persicifolia, Gigantea Moerheimi.** A grand variety with very large snow white bell-shaped flowers fully 2" in diameter. 2½'20
- Persicifolia Telham Beauty.** Immense bell-shaped flowers of china-blue. 2½'20
- Pulla (R)**—Forms a dense mat of fine foliage. Shining bells of exquisite russet-purple on 3" stems.35
- Pulloides (R).** A new and beautiful hybrid. Dazzling purple bells beautifully clothed with fine, silken hair. 8"50
- Pusilla (R)** Delicate lacey foliage with tiny pale blue thimble-like bells in great profusion. 6"20
- Raddeana (R).** Glossy round leaves sharply toothed. Very large violet bells on 9" stems. Should be in every collection.25
- Rotundifolia. Olympicum (R) (Blue Bells of Scotland).** Blooms all summer on 8" stems. Very beautiful.20
- Stansfieldi (R).** A very rare and lovely hybrid. Small, fuzzy leaves and pendant bells of warm violet on gracefully arching 4" stems.75
- Tommasiniana (R).** A real treasure blooming from July to Sept. Long, narrow, pale purple bells on 8" stems.75
- Trachelium (Coventry Bells)** Deep violet purple June and July. 3'20

Centaurea (Sen-tau'-ree-a) Dealbata—Forming large clumps 2' high. Fine rose pink cornflower-like blooms. Good foliage.20

- Macracephala.** The buds of this plant form great brown burrs from the top of which burst the beautiful golden yellow thistle-like flower in midsummer.20
- Montana.** Large deep blue cornflower like blooms.20

One each of the Centaureas—.50

Cerastium (Ser-as'-ti-um) Tomentosum (R)—Prostrate silvery foliage, myriads of satiny white flowers.20

Convallaria (Kon-val-lair'-i-a) Majalis (R)—Well known Lily-of-the-Valley. Large clumps.25

Coreopsis (Kor-e-op'sis)—Deep golden yellow daisy-like flowers on long wiry stems produced freely all season. The perfect cut flower20

Corydalis (Ko-rid'-a-lis) Cheilanthisfolia (R)—A very choice plant having foliage like the daintiest fern and many spikes of white flowers.35

Chrysanthemum Amaliae blooms all summer.

Chrysanthemum (Kris-an'-the-mum)—Hardy Garden varieties. No plant gives a finer display of bloom in late summer and fall than these. The following have been carefully selected to give early blooms in our northern climate.

- Aladdin. A wonderful new bright copper-bronze color. blooming from early August until frost.25
- Alice Howell. Rich copper orange.25
- Armored. Very large bronze and gold.
- Belle Mauve. Fine Blush Pink. Large. Early.
- Caribou Rose. Extra early deep rose.25
- Chrysolora. Large early yellow. Incurved petals.
- Crawforti. A very glossy free blooming yellow button.
- Crokers Crimson. Richest crimson with buff reverse.
- Crimson Beauty. Very early. We consider it the best red.
- Firelight. Early bright red.
- Frances Whittlesey. Bronze and garnet.
- Idolf. Fine salmon pink.
- Jean Treadway. Starry, double flowers of soft, light pink with contrasting crimson center. Very early.25
- LaGaronne. Beautiful rose and buff.
- Lilac. Pretty rosy lilac.
- Little Dot. Mahogany crimson, button type.
- October Gold. Early orange aster-flowered.
- October Girl. Lovely lilac pink. Early.
- Petite Louise. Early, fine, large, deep pink.
- Philadelphia. Beautiful clear rose.
- Pink Normandy. Extra early fine clear pink.
- Provence. Pleasing pale pink.
- Rose Travena. Very early light rose.20
- Ruth. Large claret button.
- September Queen. Very early white.
- Skibo. Bronze button. Early profuse bloomer.25
- Turkish Beauty. A most brilliant and unusual shade of rust red. Semi-double. Early35
- Vivid. Bright pink button. Early.25
- Yellow Normandy. Vigorous effective yellow.

.20 each, \$1.50 a dozen unless otherwise noted.

One each of the 29 sorts— \$4.25

Chrysanthemum Coreanum—Of recent introduction from Korea. A very hardy sort having a large golden disc surrounded by white petals, turning pink with age.25

Chrysanthemum (R)— Dwarf Summer blooming sorts.

- Amaliae (Azaleamum or Pink Cushion) A novelty of unusual merit. Forms a dense plant 10" high blooming continuously from July to October. Flowers double, clear rose pink.35
- Lorelei. Similar in habit with bright golden yellow flowers.25
- Red Flare. Also similar with bright rusty red flowers of unusual brilliance.25

One each of the three dwarf sorts .70

FREE: Your choice any 25c plant with each \$2.00 sent in.

Clematis (Klem'-a-tis)—The following are herbaceous sorts coming from the ground each season and forming compact bushes 2½' in height. All are excellent subjects for the hardy border.

- Davidiana. Bright green foliage and tubular, bell-shaped. fragrant blue flowers..... .35
- Integrifolia coerulea. Interesting large deep blue flowers with twisted petals from June to August..... .45
- Recta. Fragrant pure white flowers in large, showy clusters..... .35

One each of the 3 Clematis—\$1.10

Corydalis Lutea—Lovely fern-like foliage and golden yellow blossoms from spring till frost..... .25

One each of the 2 Corydalis—.50

Crucianella (Kreu-si-an-el'-la) Stylosa (R)—A delicate creeping plant of easiest culture. Very attractive foliage and large heads of delightful old rose colored flowers.20

Delphinium (Del-fin'-i-um)—Stately perennials growing to eight feet in height and often giving us three feet of solid bloom at one time. If cut back clear to the ground after blooming each time they will continue to bloom from early spring until cut by frost in late fall. Should be heavily fertilized for best results. In addition to some of the finest imported named hybrids we are offering several of our own introductions which we consider of unusual merit. We offer large strong roots, guaranteed true to name.

- Annette. A semi-double sort with lavender petals tipped with bright blue. Olive markings in the bee make this a most unusual color combination. \$2.25
- Concord. A most brilliant Gentian blue single having a white bee striped with bright purple. An outstanding flower even in large collections. When grown under proper conditions this delphinium will scent the whole garden with a delightful grape fragrance. We cannot guarantee this, however, as under some soil conditions it does not seem to be fragrant. \$3.50
- Coquette. An English origination of deep blue and purple. Very double. Strong grower and free blooming. \$2.50
- Invincible. Double. Very large, deep purple with bronze bee. Tall grower with strong flower spike opening all at one time. \$4.50
- King George. Very double, deep, dark blue and purple with extra large black bee surrounded by a velvety crest of green gold. We like this. \$2.50
- LaBelle. Double. Rich medium blue with margin of lavender. Lovely fawn colored eye. Very fine. \$5.00
- Lady Dorothy. An extremely large pure lilac mauve. This is one of the rarest of all shades in delphiniums, coming to us from an English grower. \$5.50
- Princess Pat. Double. Outer petals light blue, inner pinkish lavender, white eye with golden crest. The petals have a frosted effect which scintillates in the sunshine with dazzling beauty. Very large branching type. \$6.50
- Solihul Glory. A recent importation from England. A huge spike of double mauve flowers with black bee. \$4.50
- Star Dust. Cold steel blue enlivened by a heavy sheen of silver frost. \$1.75
- Mixed Seedlings. We have a fine lot of 2-year seedling clumps. These have been grown from our own wonderful collection of named sorts and will give excellent blooms the first season. 25c each, dozen \$1.75

We highly recommend **Pentstemon Fruiticosa**.

—Royal Spray.

This delphinium originated with us five years ago and we have spent a great deal of time testing it to make sure that it is really the distinct variation from type that it seemed in the beginning. We now feel confident that it is one of the outstanding new flowers of recent years. Royal Spray is one of the fine truly double bi-colors, coming in deep cobalt blue and rich purple. It attains a height of from 5' to 6' with straight sturdy stalks. At this point, however, it puts all delphinium precedent aside and instead of forming the conventional stiff flower spike, this plant twists and curls outward and down, literally spraying its beautiful star-like blooms in a mad cascade. The individual florets do not have the usual crowded effect but are set on separate little stems giving the whole blossom head a dainty and lace-like effect. A single spike of Royal Spray is a whole bouquet and several in a large display of other sorts, lightens the stiff effect unbelievably. The plant is a strong vigorous grower and seems immune to disease with us. It has proven perfectly hardy in our rigorous climate. \$7.50

Delphinium Menzeizii (R)—A gem for sun or shade having finely cut leaves and long spurred blue purple flowers in early spring. Native with us.20

Dianthus (R)— One of the most useful of all alpine for dry sunny places in the border, rockery or wall, delighting in poor soil where few things will endure.

—Allwoodii. A selected perpetual flowering hybrid having bright pink flowers.25

—Barbatus (Sweet Williams)—Mixed colors.20

—Caesius. (Cheddar Pink). Compact mounds of blue-grey with fringed rosy flowers on 6" stems in midsummer.25

—Deltoides. Beautiful prostrate plant with bright crimson flowers all summer.20

—Graniticus. Small starry speckled pink flowers of trailing habit from France.25

—Monspessulanus. Rosy pink flowers. Late flowering 6" .20

—Plumarius (R). Double clove pinks, very fragrant.

Pink; Pink and white; White.20

—Sundermanii. Clear pink on 6" stems in June.25

Dicentra (Di-sen'-tra) Exima (R)—A lovely sort with finely cut foliage blooming continuously 8"25

—Formosa (R). Dwarf species with deeply cut foliage. Lovely in shade.20

—Spectabilis. (Bleeding Heart). Large clumps.25

One each of the three Dicentra— .60

Dodecatheon (Do-de-kath'-ee-on) Cusickii (R)—A little native with intensely pink cyclamen-like flowers on 6" stems. A gem.20

—Cusickii Alba—A rare white form with brown markings.25

—Media—Delicate orchid flowered form blooming during July on 12" stems.25

—Media Alba—A fine white form of above.25

One each of the 4 Dodecatheons—.85

FREE: Your choice any 25c plant with each \$2.00 sent in.

- Douglasia (Dug-la'-si-a) (R) Laevigata**—Rich, glossy needle-like foliage in compact tufts and bright pink flowers on 2" stems. A rare and desirable alpine.50
 —*Vitaliana*. Silvery tufts similar to above with fragrant, clear, yellow flowers. Sometimes listed as an androsace .50
 One each of the 2 Douglasia—.85
- Doronicum (Dor-on'-i-kum) Excelsum**— An exceedingly showy golden daisy-like flower on 18" stems, excellent for cutting.25
- Draba (Dray'-ba) Aeizoides (R)**—Beautiful little evergreen rosettes covered with bright yellow flowers 2"....Rare .25
 —*Fladnizensis*. A fine sort from the Arctic forming mats of evergreen foliage covered with white flowers in May25
 One of each variety of Draba—.45
- Erigeron (Ee-rig'-er-on)**— A large genus closely allied to the Michaelmas Daisy but blooming in midsummer, excellent for color masses or for cut flowers.
 —*Glauc*. (R). Dwarf stems with blue-green leaves topped with big pinkish lavender flowers, long blooming season.25
 —*Salsuginosus* (R). A dwarf member of the family with blue flowers on 8" stems.25
 —*Speciosis*. Large, handsome violet-blue flowers with yellow centers. 2'25
- Eriophyllum (Er-i-of'-il-um) Caespitosum (R)**— (Oregon Sunshine). Finely cut silvery foliage and daisy-like yellow flowers in great profusion. Delights in the poorest and driest soil.25
- Claytonia (Klay-toh'-ni-a) Virginica (R)**— Native spring beauty. Grassy tufts smothered by dainty rose flowers in early spring.25
- Eriogonum (Er-i-og'-o-um) Heraclevides (R)**—A fine native ground cover for hot dry places. Velvety silver leaves and masses of fine white flowers..... .25
 —*Ovalifolium* (R). A perfectly hardy little alpine from the desert with round silver leaves and pink flower heads all summer which hold their color all winter making it a true everblooming alpine. 3"50
 —*Umbellatum* (R). Glossy green foliage turning rich red during the winter. Large heads of lovely yellow flowers.25
- Erodium (Er-oh'-di-um) Chamaedryoides Roseum (R)**—Tiny tufts of glossy leaves and a continuous succession of deep pink veined flowers on 1" stems. One of the very best rock plants grown. Rare..... .45
 —*Cicutarium* (R). Broad prostrate rosettes of downy fern-like leaves amongst which nestle rosy pink flowers all season. Native of Washington..... .20
 One each of the 2 Erodium—.55
- Erysimum (Er-is'-i-mum) Pulchellum (R)**—Love's sulphur yellow flowers on 6" stems. Excellent ground cover.... .20
- Euphorbia (Eu-for'-bi-a) Polychroma (R)**—Extremely showy yellow bracts above leafy stalks. Fine for cutting. 10" .25
 —*Cyparissias*. Like a miniature Cypress, with many yellow flower-like bracts during June and July. 10"20
 One each of the 2 Euphorbias—.35
- Fritillaria (Frit-i-lair'-ri-a) Purica (R)**—Our native yellow-bell. Nodding golden bells on 6" stems.15

Try *Pulmonaria Saccharata*. You'll love it.

Funkia (Funk'-i-a) (R)—Handsome foliage and Lily-like flowers on graceful spikes. Fine in sun or shade.

—*Coerulea Lanceolata*. Broad green leaves and blue flowers25

—*Subcordata Grandiflora*. Fine yellow leaves, flowers white..... .35

—*Undulata Variegata*. Creamy white foliage marked with bright green. Light blue flowers..... .35

One each of three Funkia Lilies—.85

Gaillardia (Gayl-lar'-di-a)—Gorgeous daisy-like flowers of brilliant crimson, zoned with yellow and orange..... .20

Galium (Gay'-lium) Atropurpureum (R)—Light airy foliage topped with small purple flowers. Very dainty..... .25

Gentiana (Jen-shi-an'-a) (R)—So named after the ancient king, Gentius of Illyria, and truly living up to their royal heritage. The intensity of their coloring has made them the standard of color description for blue throughout the world.

—*Acaulis*. The famous Gentian of the Alps. Dazzling blue trumpets cover the dwarf evergreen mat of foliage.....50

—*Acaulis clusi*. Having flowers somewhat longer and stems a trifle longer than the former.50

One of each of the Gentians .95

Geranium (Jer-ay'-ni-um) (R)—These are hardy perennials quite distinct from the greenhouse sorts. They vary greatly in habit but all are interesting and lovely.

—*Napale*. Large fern-like leaves and clear blue flowers in great profusion. Rare and extremely fine. 16"35

—*sanguineum*. Shapely plant with classic foliage and crimson flowers all summer. 8"..... .25

One each of the three Helenium—.55

Hesperis (Hes'-per-is) Matronalis—Fragrant lavender pink phlox-like flowers in profusion in June. 3'.....20

Heuchera (Hew'-ker-a) (R)—Fine heart shaped evergreen leaves and spikes of fairy-like bells forming perfect mist of color. Every flower lover should have these.

- Alba. A fine white variety.25
- Coral pink. Bright lively pink.25
- Glabella. Glossy palmate leaves and close spikes of soft yellow flowers. 10".....25
- Pluie de Feu. Deep coral red.35
- Rosmondi. Soft coral pink35
- Sanguinea. Brightest crimson.25

One each of the 6 Heuchera—\$1.50

Hibiscus (Hy-bis'-kus)—Our improved giant mallow grows about 4' high and has immense white, pink and red flaring cup-shaped flowers. Mixed20

Hollyhock—Fine mixture grown from extra double sorts. .20

Hosta Lilies—See Funkia.

Hyacinthus (Hy-a-cinth'-us) Candicans—Summer blooming Hyacinth. Snow white. 3'. Give slight protection25

Plant *Lewisia Rediviva* in that hot dry spot.

Hypericum (Hy-per'-i-kum) (R)—Tiny evergreen shrublets of great merit, forming a dense mat of delicate foliage on which nestle the dainty flowers.

- Coris. Slender feathery foliage and large golden blooms all summer..... .35
- Fruticosa. A shrubby sort 3' high and making a wonderful display of golden flowers in midsummer when the color is most welcome in the border.40
- Orientale. A little more upright than the type with fine large yellow flowers..... .25
- Polyphyllum. Beautiful silvery foliage and golden flowers with conspicuous stamens..... .25
- Reptans. A wonderful trailing species with soft yellow flowers enhanced by many red anthers..... .25

One each of the 5 Hypericum—\$1.35

Hutchinsia (Hut-chin'-si-a) Alpina (R)—A true alpine forming a dense mat of deep green very finely cut foliage smothered under masses of filmy white flowers in May and June..... .25

Inula (In'-eu-la) Ensifolia (R)—Vigorous plant and continuous bloomer. Large yellow aster-like flowers. 9"..... .20

Iberis (I'-ber-is) Little Gem (R)—Another fine shrubby little evergreen with sheets of snow white flowers. 8".... .20

- Gibraltarica (R). Showy lilac flowers20
- Tenoreana (R). Lovely pale pink20

One each of the three Iberis—55c

Iris (I'-ris) Germanica:

- Alcazar. Immense deep blue bi-color.25
- Amas. Tall blue and violet.
- Ambassadeur. Deep red and bronze.25
- Ann Page. Superb clear lavender. Tall.35
- Archeveque. Deep red and purple.
- Arnols. Purple and bronze, orange beard.
- Asia. Silvery lavender veined with purple25
- Autumn King. Deep blue bi-color blooming again late in the fall.25
- Ballerine. Huge pale blue lavender.35
- Black Knight. Intense black purple.
- Caprice. Large red and pink blend.
- Cecil Minturn. Soft Cattleya rose.35
- Celeste. Soft pale violet.
- Citronella. Soft Chrome yellow veined red.
- Colonel Candelot. Velvety crimson and bronze.20
- Crimson Glow. Rich purple and red. Frilled petals. .50
- Crusader. Very tall lavender blue.20
- Dalmarius. Tall lavended flushed pink.
- Dejazet. Ruffled dusky rose and red violet.40
- Dorothea. Dwarf blue-grey veined purple.
- Edouard Michel. Distinct reddish violet.
- Eldorado. Rich bronze shaded heliotrope.
- Fairy. White with pale blue markings.
- Fro. Brilliant red and yellow bi-color.50
- George Yeld. Soft rose and crimson edged buff.35
- Gold Crest. Bright violet with golden beard.25
- Gold Imperial. Best golden yellow.
- Her Majesty. Soft all pink.
- Imperator. Very large purple and brown.40
- Jacquesiana. Distinctive rich brown tones.
- Jeanne d'Arc. Large ruffled white penciled lilac.

FREE: Your choice any 25c plant with each \$2.00 sent in.

- Jean Chevreau. Yellow and olive stippled red.50
- Juniata. Lovely fragrant clear blue violet.
- Lent A. Williamson. Deep blue and royal purple. Very large and strong. One of the very best.
- Lohengrin. Gigantic Chinese violet.
- Lord Lambourne. Magnificent crimson and bronze of immense size.25
- Loreley. Deep blue veined white.
- Lord of June. Rich violet blue. One of the choicest of all25
- Mary Garden. Curiously speckled, white, yellow, lavender and maroon.
- Mary Gray Bright rich blue.
- Magnifica. Fragrant violet and purple.40
- Mme. Chereau. White daintily edged blue.
- Monsignor. Very large deep blue veined purple. An immense late bloomer.
- Morning Splendor. One of the very best reds.25
- Mother of Pearl. Exquisite pale violet with creamy undertone. A distinctive flower.25
- Mount Penn. Rose purple and magenta.35
- Mrs. Neubronner. Soft light yellow.
- Mrs. H. Darwin. White. Violet at base of falls.
- Mrs. Kleinknecht. Most intense rich deep purple. One of the very first to bloom. Named for the originator, a Spokane Iris enthusiast.75
- Nine Wells. Lavender and rich pansy-violet.
- Pallida Dalmatica. Tall fragrant pale blue violet.
- Pallida Dalmatica, Princess Beatrice. Pale silvery blue. Immense.25
- Pallida Dalmatica, foliis variegatis. Flowers like above but foliage broadly margined with creamy yellow. Very ornamental all season.45
- Peau Rouge. Brilliant novelty, almost a true red.35
- Powhatan. Violet and deep purple crimson.35
- Prosper Laugier. Most handsome brown-toned Iris.
- Prospero. Gorgeous blue and purple. Large.35
- Quaker Lady. Attractive smoky blue and olive-buff.
- Queen of May. Delightfully fragrant delicate pink.
- Queen Caterina. Clear orchid purple veined brilliant gold further enhanced by an orange beard.20
- Rheine Nixe. Violet blue edged white.
- Rosalba. Distinct wine-red shading deeper.25
- Roseway. An exquisite red-toned sort.
- Shekinah. Delightful pale yellow and amber.
- Sherwin-Wright. Rich golden yellow. 2'.50
- Shrewsbury. Lilac and purple. Golden beard.50
- Souve. de Mme. Gaudichau. Rich deep velvety purple of remarkable size. Distinct and striking flower.25
- Souv. de Lolita Michaud. Huge Lobelia blue.50

 One each of the 3 Linarias—.55

FREE: Your choice any 25c plant with each \$2.00 sent in.

Linnaea (Lin-ne'-a) Borealis. (R)— Beautiful little native evergreen creeper with pink Abelia-like flowers in pairs all summer. Best in moist shade.35

Linum (Ly'-num) Flavum (R)—Very lovely sort with transparent yellow blooms. 8"..... .20

Narbonnense (R)— Spreading clump of attractive foliage with azure blue flowers with white eye20

—Perenne (R)—The blue flowering flax. Very attractive..... .20

One each of the 3 Linums—.50

Lupinus (Leu'-py-nus)—Mixed Sorts. Great spikes of pea-shaped flowers in various colors25

Lutkea (Lut-ke'-a) Pectinata (R)— A most unusual and attractive little prostrate evergreen shrub for partial shade, very finely divided foliage of the brightest emerald and dainty heads of white flowers.35

Lythrum (Lith'-rum) Superbum Roseum—Great spires of lovely rosy purple flowers on neat bushes 3' high. Very showy..... .20

Lychnis (Lik'-nis) Alpina (R)—Charming little tufts of narrow leaves and bright pink flowers on 4" stems..... .20

—Chalcedonica. Heads of the most vivid scarlet flowers imaginable on 4' stems..... .20

—Viscaria Splendens. Bright pink flowers in early spring. Always ready for Memorial Day. 15"20

—Viscaria Fl. Pl. (R)—Entirely distinct form. Large double pink flowers. The best of the newer sorts. 8" .35

One each of the 4 Lychnis—.85

Matricaria (Mat-ri-ca'-ri-a)—Excellent plant for low borders or for specimens in the rockery. Finely divided highly aromatic leaves.

—Golden Ball. Beautiful bright yellow foliage the year around and many single white flowers..... .20

—Little Gem. Green leaved with double white flowers like miniature pompoms..... .20

One each of the 2 Matricarias—.35

Mertensia (Mer-ten'-si-a) Oblongifolia (R)— Another little native gem having a cluster of intensely blue bells on 4" stems in early spring.20

Mimulus (Mim'-eu-lus) Lewisii (R)— A lovely West American having many soft salmon pink flowers all season25

Monarda (Mon-ar'-da) Didyma Cambridge Scarlet—Loose heads of intense scarlet flowers all summer. Fragrant foliage 15"..... .20

Nepeta (Nep'-e-ta) Mussini (R)—Fine compact plant with greyish foliage and clouds of lavender flowers. 8"..... .20

Papaver (Pa-pay'-ver) Nudicaule (R)—Neat tufts of fern like foliage with brilliant orange and yellow flowers all Season..... .20

—Alpinum—Like a small and more delicate Iceland in many bright colors..... .25

Phygellus Capensis makes a brilliant showing.

Papaver Orientalis— Nothing equals the Oriental Poppy for brilliance in the border. They also make excellent cut flowers if the tips of the stem are seared over when cut to prevent bleeding. We supply small potted plants in spring or large dormant roots in late summer.

- Beauty of Livermore. Very deep brilliant crimson with dark blotch.35
- Olympia. Very double flowers 4" to 5" across, of wonderful rich flame scarlet overlaid with an iridescent glistening gold.35

One each of the two Orientals .65

Papaver Rupifragum. Big, silky, orange red poppies on 18" stems.35

Pardanthus (Par-danth'-us) **Belamcanda** or **Blackberry Lily**—Large branching heads of Lily-like flowers. Bright orange spotted black, followed by seed pods resembling blackberries. Fine in winter bouquets 2'25

Pentstemon (Pent'-ste-mon) An extremely interesting American genus of easiest culture. The taller sorts are among the most satisfactory cut flowers and the dwarfer sorts are invaluable for the rock or wall garden. All are interesting and some of the showiest plants in cultivation are found in this group. All have tubular shaped flowers with a distinct bearded lip.

- Azureus (R). A beautiful free blooming sort with clear blue flowers. 8"35
- Barbatus Torreyi. Forms broad mats of evergreen foliage from which rise 4' stems of rich scarlet flowers.... .20
- Blue Beauty (R). An unidentified sort from the high mountains that has proven very easy in cultivation. Evergreen foliage and unusually bright blue flowers in profusion. A gem. 6"35
- Centranthifolius (R). Forming evergreen mats sending up 15" stalks of fiery-red flowers25
- Grandiflora. One of the largest and most beautiful bearing 2' spikes of lavender bell-shaped blossoms. .45
- Deustus (R) A native of our high mountains with evergreen foliage and white flowers on 10" stems..... .20
- Fruticosa (R). Lovely evergreen shrubby sort covered with lilac purple flowers in early spring. 9"..... .25
- Fruticosa Azurea (R). A pale blue variation of the above..... .25
- Glaber (R) Blue green foliage and crowded spikes of blue flowers, daintily tinted with pink. 10"..... .35
- Lactus (R). A fine dark blue variation. Profuse bloomer.35
- Menziesii (R). Choice little evergreen creeper. Blue or purplish flowers on 4" stems.35
- Procerus (R). Very fine foliage and masses of deep blue flowers.35
- Pubescens. Bright rosy purple. 1½'25
- Pubescens Pygmaeus (R). This fine plant came to us under this name but we think it improperly listed. A shrubby sort with great masses of purple-blue flowers. 15" .35

FREE: Your choice any 25c plant with each \$2.00 sent in.

- Rattani Minor (R). A lovely evergreen creeper with sheets of lavender blue flowers.50
- Roezli (R). Most attractive thick blue-green foliage and fine spikes of deep blue flowers on 12" stems.35
- Rupicola (R). A very rare and beautiful little evergreen with compact habit of growth and bright red flowers. Very drought resistant. 3"..... .35
- Scouleri (R). Similar to Fruticosa but growing in a more dense mat and a little more dwarf.25
- Scouleri Alba (R). A graceful evergreen shrub with large pure white flowers. 15".35
- Unilateralis. 3' spikes of opalescent blue flowers. choice..... .35

One each of the 20 Pentstemon \$5.95

Peonies— We grow over 200 varieties and will be glad to quote prices on any not listed here. Peonies will be shipped in September only but may be included with spring orders and shipment will be made at planting time.

- Avalanche 8.7. White. Late mid-season. Very large cone-shaped making excellent show flower.75
- Baroness Schroeder 9.0. A wonderful late pure white variety. Opens a delicate pink and soon fades to a waxy white.50
- Couronne d'Or 8.1. Outer petals pure white inclosing a ring of yellow stamens which in turn inclose a tuft of white center petals tipped carmine. One of the most satisfactory white peonies grown as it never burns and never fails to give a wealth of wonderful cut flowers .75
- Duchess de Nemours 8.1. An early creamy-white having excellent clean foliage. A dependable and profuse bloomer.60
- Edulis Superba 7.6. We think this grand old variety greatly under-rated. A beautiful deep pink crown type blooming profusely and is always ready at Memorial Day for us.35
- Felix Crousse 8.4. Fine deep rose-red late sort making a excellent cut flower.50
- Festiva Maxima 9.3. Tall, early white flecked crimson. Very large rose-type.40
- Frances Willard 9.1. A very fine white mid-season, opening a faint blush. An excellent show flower.75
- Kelway's Glorious 9.8. We consider this the best white peony grown. It is very large and might be likened to a magnified rose in type and silken texture but the petals are so arranged that the whole flower seems to be made of exquisite white silk lace. Very fragrant \$2.50
- Karl Rosenfield 8.8. Tall vigorous grower and extremely free flowering. Rich, deep, brilliant red. Fine foliage and a wonderful cut flower.40
- Lady Alexander Duff 9.1. One of the largest and finest pinks. A beautifully formed fragrant rose-type. Universally admired. \$1.00
- LeCygne 9.9. The highest rated peony grown. Hugely delicately fragrant pure white blooms in early mid-season. \$1.75
- Longfellow 9.0. One of the very most popular red peonies because of its dependability under all conditions and its wonderful large bright crimson color which does not fade in the sun. Should be in every collection. \$1.50

Draba Aeizoides is one of the first to bloom.

- Mons. Martin Cuhuzac 8.8. This is the darkest red peony. A wonderful dark garnet with black reflex. A strong grower having large rose type blossoms. An outstanding flower in any garden. \$1.00
- Martha Bulloch 9.1. The largest of the really good peonies, blooms often measuring from 9" to 12" across. A fine deep old rose, very fragrant.75
- Milton Hill 9.0. A delicate salmon-pink. One of the best show flowers, admired everywhere. \$1.50
- Mons. Jules Elie 9.3. This peony is almost without a rival. The beautifully incurved petals give the same effect as a huge Chrysanthemum and the color is a pure bright pink. Unexcelled as a cut flower.50
- Officinalis Rubra Fl. Pl. 8.6. The grand old Memorial Day red peony of our Grandmothers' gardens. Large, round vivid crimson blooms.50
- Richard Carvel 8.8. One of the best early reds in our collection. Large bomb type. In great demand \$1.00
- Rosa Bonheur 9.0. Lovely light violet-rose flecked crimson. A large delicate lace-like flower. \$1.75
- Sarah Bernhardt 9.0. Apple-blossom pink silver tipped. Perfect form and delicately scented. Always found among the winners of every show. \$1.00
- Solange 9.7. Beautiful and distinct, showing rich orange-salmon or Havana-brown coloring which seems to emanate from the heart of the flower. \$1.00
- Therese 9.8. A wonderful pink early-midseason having petals of unusual texture resembling heavy crepe paper. The supreme achievement of its originator, Dessert. .75
- Tourangelle 9.4. Another extremely popular sort coming in late midseason. A delicate pearly white suffused with shades of old rose and salmon. \$1.00
- Walter Faxon 9.3. The most vivid of all pinks. Should be cut in the bud and opened indoors for the best color \$1.00

Phlox (Flox) Decussata—The well known hardy phlox whose bright colors in late summer are loved by everyone. We offer a choice list of the newer sorts.

- Aldenham Triumph. Delicate silvery pink with red eye.
- Antonin Mercier. A delicate lilac-blue. Exquisite.
- B. Compt. A rich satiny amaranth. Very brilliant.
- Bacchante. Tyrian-rose with crimson eye.
- Champs Elysee. Bright rosy red.
- Eclaireur. Brilliant rosy-magenta.
- Enchantress. One of the finest salmon pinks.
- Flora J. Riedy. Enormous panicles of pure white flowers.
- Jules Sandeau. Large fine deep salmon pink.
- LaVague. Pure mauve, with aniline-red eye.
- Mrs. Jenkins. The best all-around pure white.
- New Bird. Deep crimson-red with purple eye.
- Painted Lady. Lovely pink with cherry colored eye.
- Professor Virchow. Bright carmine overlaid with brilliant orange-scarlet.
- Rheinlander. A beautiful salmon pink.
- Rijnstroom. Very large rose pink.
- Riverton Jewel. Mauve-rose with carmine eye.
- Thor. One of the best salmon-pink sorts.
- Widar. Light reddish violet with white center. Fine.

20c each; any 10 \$1.50; any 15 \$2.10

FREE: Your choice any 25c plant with each \$2.00 sent in.

Phlox, Early-Flowering— These are a cross between the Decussata and our native sorts and bloom from early summer until frost thus lengthening the season of this popular flower considerably. 15".

- Arendsi Louise. Vigorous branching habit with lovely delicate lilac flowers.25
- Maculata hybrida Alpha. A remarkably free flowering sort that should be in every collection. The flowers are soft warm amaranth-pink.25
- Miss Lingard. A grand white variety that is very popular because of its continuous bloom from May to October .25

One each of the early blooming Phlox .70

Phlox Subulata (R)—Fine evergreen creepers covered with sheets of bloom in early spring and scattered flowers all summer. Must have full sun.

- Alba. A large flowering clear white selection.20
- Apple Blossom. Delicate apple-blossom pink.25
- Brilliant. Fine deep carmine red. New25
- Brittoni. The most drought resistant. White star-like flowers with rings of minute blue dots in the center of each blossom.35
- Fairy. Pale blue with dark purple eye. Neat habit..... .20
- Lilacina. Pale blue. Strong grower. Lovely foliage in winter..... .25
- Moerheimi. Fine new carmine pink..... .25
- Mrs. G. F. Wilson. Lavender-pink flowers over a very long blooming season. New.25
- Rosea. Fine strong growing pink flowering sort.20
- Vivid. Bright pink with dark eye. Very compact..... .25

One each of the 10 Phlox Subulata—\$2.25

Phlox Adsurgens. (R)— Another fine evergreen round cover having large salmon-pink flowers. When grown in shade and moisture this is a very lovely plant.35

Phlox Amoena (R)—A wonderful ground cover completely hidden in early spring by clouds of very bright pink bloom. 4". Large plants25

Phlox Divaricata Canadensis (R)—Lovely fragrant blue flowers on 6" stems. Likes some shade. April and May .25

Phlox Divaricata Laphamii (R)—Stronger growing and longer blooming than the preceeding. Wonderful clear lavender..... .35

Phlox Ovata Caroliniana (R)— Large evergreen basal leaves and masses of brilliant reddish-pink flowers. 6".25

Phlox Rigida. (R)— Compact slow growing mat-forming phlox with stiff bristle-like foliage and lovely flowers from white to pink. In many ways the best creeping phlox. A native of Washington. Large plants.50

Phlox Sctacea. (R)— Vivid bright pink trailer. Distinctly different.25

One each of the 7 above various species of Phlox— \$2.00

Phygelius (Fy-ge'-li-us Capensis—The hardy Cape Fuchsia producing tubular bright scarlet flowers in great profusion. 3'. New and fine.40

Physalis (Fy'-sa-lis) Francheti or Chinese Lanterns—Fine for winter bouquets20

Physotegia (Fy-soh-stej'-i-a) Virginica— Spikes of orchid pink flowers in great profusion..... .20

Talinum Spinescens should be better known.

Platyedon (Plat-i-koh'-don) Grandiflora—Showy bell-shaped blue and white flowers all summer. 15"..... .20
 —**Mariesi (R)**. Splendid dwarf form with violet flowers .25

Potentilla (Poh-ten-til'-la)

- Tridentata (R)**. Fine low growing sort with glossy dark green leaves which turn bright red in fall. White flowers 3"35
- Verna Nana Syn. Cinera (R)**. Compact evergreen cushion and yellow flowers all season 2"35

One each of the 2 Potentillas .65

Primula (Prim'-eu-la) (R)—We feel that too much cannot be said in praise of the primrose. Nothing is more lavish with its bloom nor more varied in color and type. For years we have been admirers and collectors of these fine plants and our beds are a source of wonder and delight to all who visit us. Surely no garden large or small is complete without a good collection of primroses.

- Auricula Alpina**. A real treasure forming rosettes of thick evergreen leaves. Many stalks of fragrant lovely flowers. Our collection is made up of giant blooming sorts in fine colors. Mixed..... .25
- Cashmeriana**. Large, globular heads of pleasing lavender flowers. 10"..... .35
- Cortusoides**. A distinct Siberian species. Deep rose flowers in early summer. 10"..... .35
- Juliae**. Creeping sort forming mats of glossy leaves and a profusion of starry flowers of claret color all summer. 2"..... .35
- Kleynii**. New sort with extra large flowers on strong stems. Very deep golden yellow shaded apricot..... .50
- Officinallis**. Large heads of tiny flowers in bright copper and scarlet held well above the foliage. Very profuse.25
- Polyanthus (Having clustered flower heads)**
 - American Beauty Rose. Very free and early rose.... .35
 - Dark Red Velvet. Fine dark red..... .25
 - Duplex or Hose-in-hose. Interesting sort with two corollas, one within the other..... .40

 - Lilacea. Exquisite lavender rose..... .50
- Primrose Lodge**. A hybrid of *Juliae* having similar foliage and flowers of deep crimson in umbels like polyanthus. Very rare..... .35
- Vulgaris**. True old English Primrose with pale yellow flowers..... .25

One each of the 22 Primroses \$6.25

Polemonium (Pol-i-moh'-ni-um) **Richardsoni**— Lovely pinnate leaves and showy blue flowers in loose heads..... .20
 —Reptans (R). Graceful bushy plant with beautiful sky blue flowers. One of the best blue rock plants. 10".... .25

Polygonum (Po-lig'-o-num) **Compactum**—15". In the fall the entire plant appears as a foamy mass of white.... .25

Pyrethrum (Py-ree'-thrum)— Last year for the first time we offered plants from our wonderful collection of double Pyrethrum. The demand for this beautiful plant even exceeded our expectations and we sold entirely out of a number of sorts. Hence we have had to cut the list down somewhat this season. We would suggest ordering early if you are interested.

Pyrethrums have been called the poor man's Chrysanthemum and we think that the newer sorts are a very close rival of that popular flower. We believe that we have the largest collection in this country and consider the bloom unrivaled as cut flowers for Memorial Day. All have been propagated vegetatively and are guaranteed true to name.

—Glory of the Midnight Sun. Very double deep Bengal rose with lighter center.

—Marina. Large deep pink comet flowered.

—Martinque. Very tall light lavender pink.

—Marvel. Delicate Hydrangea pink. A double quilled sort.

—Orchid. A tall grower. very double lavender of exceptional beauty.

—Queen Mary. Very large semi-double silvery pink.

—Razul. Dainty pink with white center.

—Her Majesty. Semi-double rose red.

—Saturn. Very large rose red, comet flowered.

—Sunrise. Clear delicate pink, comet flowered.

—The Pearl. Purest white pompom.

—Venus. Fine large deep rose. very double.

45c each; 5 for \$2.00; 12 for \$4.50

Pyrethrum James Kelway— A very choice single large blood-red. One of the best cut flowers for Memorial Day. .35

Rhubarb. Extra fancy Strawberry Rhubarb. Each20
3 for50; 7 for \$1.00

Viola Hederacea blooms all summer.

FANTAIL PIGEONS

A garden without birds loses much of its charm. Unfortunately wild birds are not always in evidence when we have a few minutes to enjoy our gardens. Therefore, nature-lovers all over the country are coming more and more to realize the pleasure that can be derived from a few pairs of really good pigeons.

An artistically built dove-cot placed against a building or set atop a post is an ornament to any garden. Great care should be taken, however, that the house is out of reach of cats and dogs. Pigeons seem to be impervious to cold but must have a perfectly dry home. They eat practically no green feed and do not scratch or dust in the ground as chickens do and so are not harmful to the garden.

Of all the fancy pigeons, Fantails are the true aristocrats. They are dainty little birds with huge tails of which they are very proud. They hold their heads very high and fairly quiver with excitement as they strut about and their soft cooing is a delight to hear. The weight of their large tails keep them from being great fliers and so they do not get far from their home at any time. They are gentle and easily tamed and can be trained to eat out of ones hand and come when called or whistled for if pains are taken to feed them only in this way for a short time.

We are very proud of our birds as they have been a hobby of the owners since childhood and only exceptionally fine specimens are used for breeding purposes. There is no gift that the children appreciate more than a pair or two of these beautiful birds. We can supply mated pairs at the following prices:

	One Pair	Two Pairs
Pure White	\$3.00	\$5.50
Blue	3.00	5.50
Splashed (mixed colors)	3.00	5.50
Pure Black	4.00	7.50
Crested White (Top-knots)	4.00	7.50
Red	5.00	9.25
Buff	5.00	9.25

Free plant offer does not apply to pigeons.
